

# MAJICVERSE

## BACKGROUND

### DISASTER

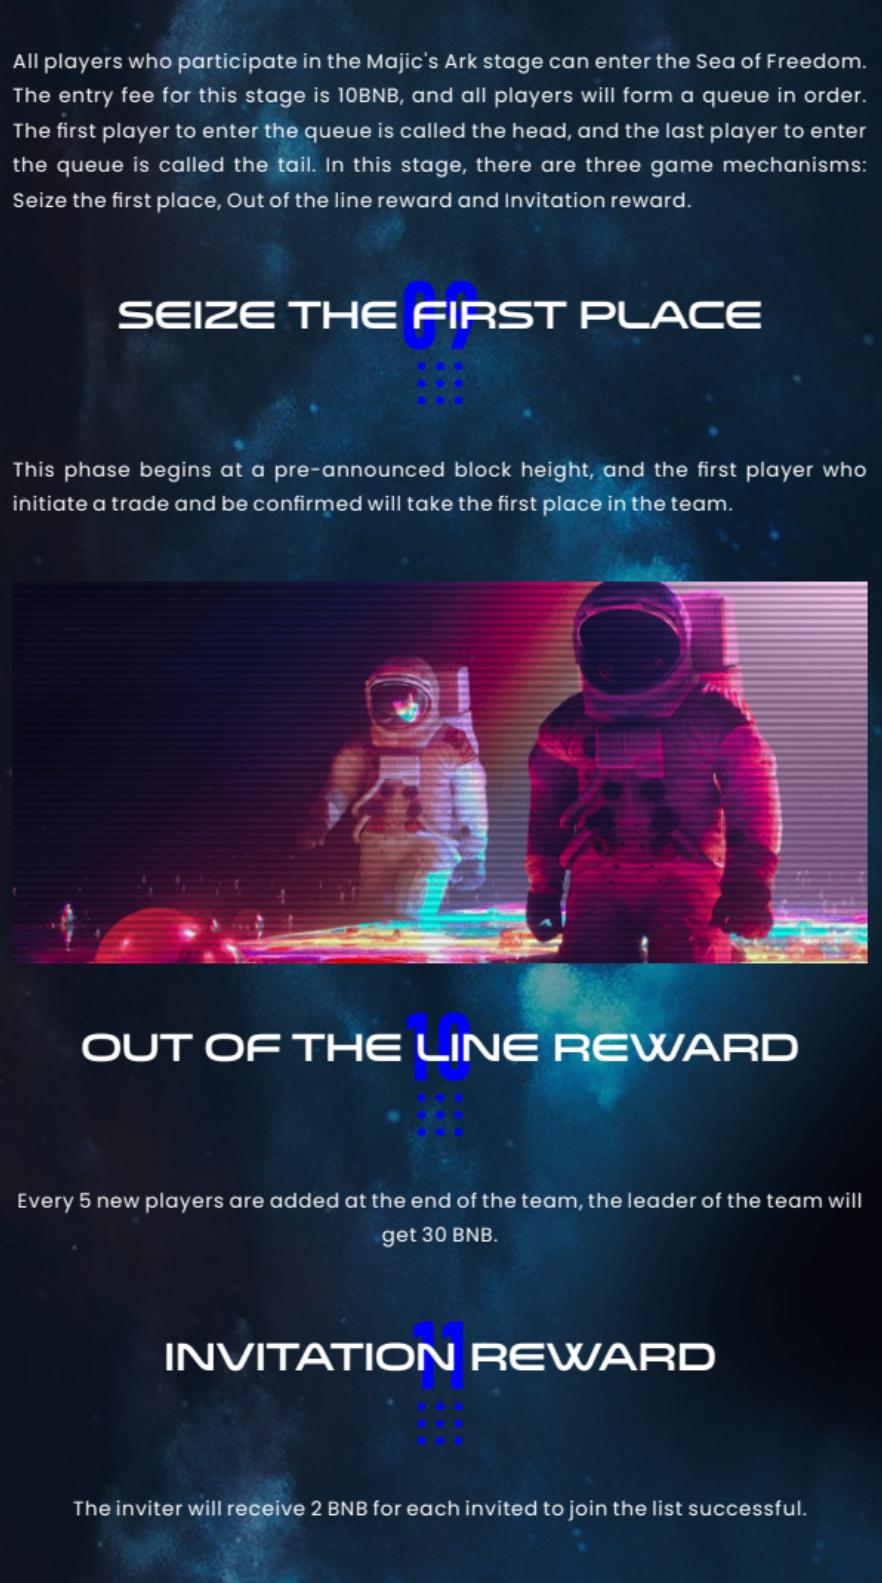

In 2277, ecological imbalance and frequent natural disasters made the earth no longer livable. The environment outside the earth is not suitable for carbon based life, therefore it is urgent to explore new life forms.

### HOPE

Majic foundation is far sighted and has long been arranged in advance to extract stellar ash from many star cores as a catalyst for the transformation from carbon based life to silicon-based life. On the other hand, silicon-based organisms also need to eat enough silicon-containing food to survive. Majic Dew, a special nutrient solution developed by scientists on Majic planet, can provide various nutrients required by silicon-based organisms.

### RESCUE

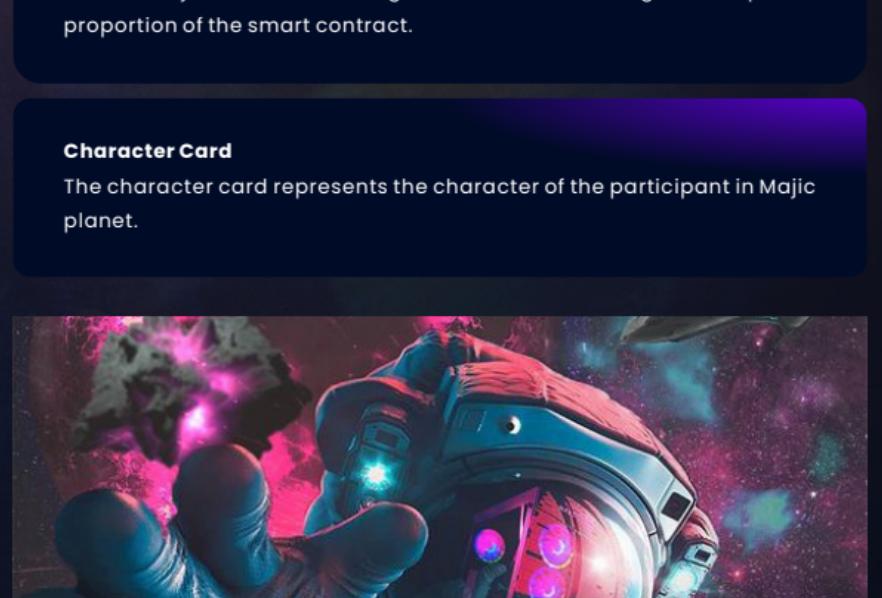

### MAJIC ARK

The unit-price of 50 captain seats is 30 BNB. The people who buy seats will get the Magic genesis emblem NFT based on ERC-721 creation and enjoy equal right of voting and dividend rights in Magic DAO. The proceeds are locked into the Majic DAO vault. The main duties of a captain include:

1. Produce quality we-media content related to Majic social meta universe, for example, the innovation of block chain and AR / VR technology on the interaction mode between users and the unique use cases that may be created.

2. Recruiting crew members and encourage them to participate in the construction of Majic ark and metaverse. The captain's loyalty assessment and potential benefits are closely related to the performance of subordinate crew members.

At the same time, we will use Chainlink VRF as the entropy source to endow each Magic genesis emblem NFT with four-dimensional attributes and hidden ability, which will be unlocked during the landing of Majic metaverse and directly affect the captain's profit and game experience in Majic silicon-based planet.

### MAJIC COMMITTEE

### DYNAMIC REFERRAL

A dynamic promotion mechanism is set up in the system, which includes three classes of tickets, priced at 2/5/10bnb respectively, and the promotion rewards that captains and crew of all levels can get in one promotion trip are the minimum between the upper and lower levels. Ten percent of the agency award will flow into a dividend pool to be shared between the 50 captains and the Majic Foundation according to preset contract rules.

### LOYALTY SYSTEM

Majic Foundation will combine the rule model and machine learning model to build a loyalty quantification system, which regularly generates loyalty quantification scores and reports for 50 captains per month. Based on the quantitative ranking and the voting results of the nine governing board members, the lowest ranked captain will be removed from the list of captains and the vacant seats will be auctioned off to determine the replacement.

### MAJIC RESOURCES

1. **Stellar Ash**  
Based on ERC1155 (TokenID = 0), stellar ash is used to synthesize carbon based life, and it is a catalyst for silicon-based life. After unlocking the Sea of Liberty, the smart contract will airdrop stellar ash to the participants according to the loyalty model. Participants need to hold a certain amount of stellar ash in the Taking Off stage to obtain the boarding qualification.

2. **Majic Dew**  
Based on ERC1155 (TokenID = 1), Majic dew is the nutrient and energy supply required to maintain silicon-based life. After unlocking the Taking Off stage, the smart contract will airdrop Majic dew to the participants according to the loyalty model. Participants need to hold a certain amount of Majic dew in the Taking Off stage to obtain the boarding qualification.

### NFT LOTTERY

If there are no new players participate in the team tail, the sea of Freedom phase will end, and the 100 players at the end of the team will split a certain percentage of the bonus pool.

### TEAM TAIL REWARD

The cumulative number of participants and the total lock value of Dao vault as reference indicators, activate the evolution after reaching the milestone.

1. Evolution 1  
Triggered after the accumulative number of participants in Magic's Ark reaches 6000, unlock the Sea of Liberty and stellar ash resources, and determine the initial airdrop number according to the loyalty model score.

2. Evolution 2  
Triggered after the accumulative number of participants in the Sea of Liberty reaches 4000, unlock the Taking Off stage and Majic resources, determine the initial airdrop quantity according to the loyalty model, and airdrop Majic citizen card to players who have participated in any stage to unlock the blind box whitelist qualification.

### MAJIC MECHANISM

1. Evolution 1  
Triggered after the accumulative number of participants in Magic's Ark reaches 6000, unlock the Sea of Liberty and stellar ash resources, and determine the initial airdrop number according to the loyalty model score.

2. Evolution 2  
Triggered after the accumulative number of participants in the Sea of Liberty reaches 4000, unlock the Taking Off stage and Majic resources, determine the initial airdrop quantity according to the loyalty model, and airdrop Majic citizen card to players who have participated in any stage to unlock the blind box whitelist qualification.

### MAJIC EVOLUTION

The cumulative number of participants and the total lock value of Dao vault as reference indicators, activate the evolution after reaching the milestone.

1. Evolution 1  
Triggered after the accumulative number of participants in Magic's Ark reaches 6000, unlock the Sea of Liberty and stellar ash resources, and determine the initial airdrop number according to the loyalty model score.

2. Evolution 2  
Triggered after the accumulative number of participants in the Sea of Liberty reaches 4000, unlock the Taking Off stage and Majic resources, determine the initial airdrop quantity according to the loyalty model, and airdrop Majic citizen card to players who have participated in any stage to unlock the blind box whitelist qualification.

### STAGE

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.

5. **Blind box**  
Having a limited quantity, blind box can open up a random character card. The character card is one of the necessary conditions for obtaining the boarding qualification. Participants need to use stellar ash or Majic dew to exchange blind box according to the preset proportion of the smart contract.

6. **Character Card**  
The character card represents the character of the participant in Majic planet.

1. **Call of Majic**  
50 seats - 30 BNB per seat

2. **Majic's Ark**  
After the 50 captain seats are sold, the Majic's Ark stage will be locked.

3. **Sea of Freedom**  
After the accumulative number of participants in Majic's Ark reaches 6000, Sea of Liberty will be unlocked, and the smart contract will airdrop stellar ash to the participants according to the loyalty model.

4. **Taking off**  
After the accumulative number of participants in Sea of Liberty reaches 6000, the Taking Off stage will be unlocked, and the smart contract will airdrop Majic citizen card to the participants in any stage. Majic citizen card is used to unlock the blind box whitelist qualification.
